

CLEARFIELD TEAM STICKS

SINN FEIN DEMANDS ARE FULL INDEPENDENCE

Despite Practical Ultimatum English Are Optimistic

Dublin, Ireland, Aug. 16.—"Only on a basis as an Irish Republic will we deal with any foreign power whatsoever" declared Eamonn DeValera addressing the Dail Eireann today as the Sinn Fein Parliament met to determine rejection or acceptance of the British peace offer, or reference of the question which means peace or war to a plebiscite. "The election of this very Parliament in itself was practically a plebiscite" DeValera said in his uncompromising speech with which he opened today's session. "The Dail's election was an expression of the will of the Irish nation."

London, Eng., Aug. 16.—All British soldiers on leave from Ireland have been ordered to return to duty immediately, it was announced today. No explanation was forthcoming of the War Office action on the cancellation of the leave, but following as it did close on the heels of "President" DeValera's speech before the Irish Parliament, in which he insisted on complete independence, it was taken as an indication that a possible break in the Irish truce was feared.

Britishers Optimistic.
Officials, newspapers and the general public have reacted from their original pessimism over the prospect of an Irish peace and today the talk is of peace. The momentousness of the Dail Eireann's responsibility has impressed itself upon the English minds. It is believed here that the Sinn Fein parliament can do otherwise than to accept the British offer or refer the question to a referendum, in which case acceptance is considered certain.

SERBIAN KING GROWS WORSE

Washington, D. C., Aug. 16.—King Peter's condition has taken a turn for worse according to a cablegram received today from Belgrade by the Serbian legation. When the cable was dispatched yesterday the King's temperature was 102.

Refinery Fire Does \$25,000 Damage

Pittsburgh, Pa., Aug. 16.—Fire at the refinery of the Atlantic Refining Co., here early today was extinguished after a loss of \$25,000 had been incurred. For a time the blaze threatened the entire works and it was feared would spread to huge oil stills.

You can't always tell how sharp a fellow is until you sit on his point of view. Cartoons Magazine

DISARM PARLEY WILL COST A COOL MILLION

Conservative Unofficial Estimates Of Conference Are Roughly Placed At Million Mark.

By RAYMOND CLAPPER
United Press Correspondent

Washington, D. C., Aug. 16.—The disarmament conference will cost the United States at least one million dollars according to conservative estimates made unofficially here today. The \$200,000 appropriation requested yesterday is only regarded as a start on the total bill which the United States will have to foot after the last delegate starts home.

But even should the expense run far over the one million mark laid down as a rough estimate this would only be a fraction of the cost of one battleship, officials pointed out.

FIREFIGHTERS ARE ARRESTED ON AN ARSON CHARGE

Pittsburgh, Pa., Aug. 16.—Charged with having fired a building to demonstrate their ability as fire fighters, Chief Harry G. Lloyd and three members of the Trenton Volunteer Fire Department were turned over to District Attorney Towand here today. They were arrested following an investigation made by Fire Marshall Pfarr into the cause of a blaze in an old stable. Police allege the men confessed.

Posse Searches For Negroes Who Seized Guard's Wife

Anniston, Ala., Aug. 16.—A posse, headed by military and police officials, today is searching for three negroes who last night kidnapped the young wife of a Gil Stomer, of Birmingham, a member of Co. K, 4th Infantry, Alabama National Guard, in training here at Camp McLellan. According to the story told by Stomer he and his wife were out walking when three negroes jumped from an automobile and kidnapped Mrs. Stomer.

Pershing Wants Girls' Training Camps Next

Washington, D. C., Aug. 16.—General Pershing wants training camp centers for girls established throughout the United States similar to those established for the training of Reserve Officers, he declared today just after returning from a tour of inspection of divisional training camps.

Man Held In Des Moines Is Not Missing Magnate

Des Moines, Ia., Aug. 16.—A man who private detectives declared was Ambrose J. Small, Toronto theatre magnate, missing since December 19, 1919, and who was said to have been found at the Poly county poor farm, is John Dougherty, injured December 4, 1917, and taken to the farm January 11, 1919, authorities at the farm announced late yesterday.

Baseball Fans Get Together Monday Night And Arrange To Finance The Terriers

Indignation Meeting Staged By Fans Turns The Trick. Committee Of Loyal Rooters Appointed To Co-Operate With C. C. A. A. Directors

ENOUGH MONEY COLLECTED AND PLEDGED IN SHORT ORDER TO INSURE TEAM FINISHING SEASON

By R. A. VAN NOSTRAND
(From A Ringside Seat)

Who said Clearfield was going to toss its baseball team overboard? Where is that fellow? It's a lead pipe cinch that after one glance at the bunch of fans who gathered in the Court Room last night at 8 o'clock, and a glimpse of their determined look, HE took to the tall timber and must be going yet. For the fact of the matter is that the boys decided that while it takes money to make the mare go and likewise to keep a baseball team going, Clearfield is not going to withdraw from the race this season on the excuse of "no finances."

Far be it from such. In a comparative short while enough money was pledged and collected last night to insure the Terriers finishing through the game to be scheduled here with Connie Mack's Athletics on September 7th. Not only was this money willingly pledged, but a large sum was also collected from those not so overly burdened with wealth. These smaller denominations ran from sums of \$5.00 down to \$1.00 and even some four bit pieces were offered by the younger fans.

In addition it was decided to hold a big Booster Day here Saturday with Philipsburg as the target for our team to shoot at. And last, but not least, an executive committee, appointed by the fans, held a love feast with the directors of the C. C. A. A., walked the sands and were duly initiated to the task of helping those who have been at the baseball helm for the past few months in getting the finance navigation charts straightened out, rocky places charted, and the good ship Clearfield once again on her course, with all sails set for the harbor of Victory and a clear run in sight with the trade winds belling out the wrinkles in the gate receipts sack sail.

The soliciting committee went at it hammer and tongs this morning and by noon had secured in cash and additional guarantees something over \$2,100. Not satisfied with this much the committee continued their efforts this afternoon and will give everybody a chance to get in.

This amount of money subscribed last night and today is in addition to the \$1,533.79 in the treasury and on the original guarantors' list, which latter sum is also being collected by the C. C. A. A. Board and will thus make a total of more than \$3,600 in sight, which will safely guarantee the team until September 7th.

FRANCE ACCEPTS INVITATION TO CONFERENCE

Message Handed To U. S. Embassy Says Premier Briand Will Attend Disarming Parley.

Paris, France, Aug. 16.—France's official acceptance of the invitation to participate in President Harding's proposed Disarmament and Pacific conference was today submitted to the American embassy for transportation to the United States. The message said Premier Briand himself would probably attend.

Washington, Aug. 16.—Expulsion of the Anti-Beer Bill was assured today when the House, by a vote of 255 to 50, adopted a special rule making it possible to send it into conference with the Senate.

RED MEN EXPECT RECORD CROWD AT BIG CONVENTION

Clearfield Lodge Will Go To Curwensville 300 Strong. Five Bands Engaged For Meet.

Crowds far greater than have ever been in Curwensville will be there for the 10th annual Reunion of the Improved Order of Red Men of Central Pennsylvania. Fifteen different costumed tribes will be in parade. Chindalamosse Tribe of Clearfield expects 300 Red Men in line. Madera is coming 200 strong. A special train will leave Madera at 7:00 A. M. August 17th, making stops at Houtzdale, Briston, Osceola Mills, Philipsburg, Blue Ball, Wallacetown, Bigler, Woodland and Clearfield. The train will make the re-

The bottom of the Susquehanna River at Harrisburg, Pa., is covered with fine coal that can be burned with a forced draft. Queer looking boats, like this, equipped with suction pumps, draw the coal from the river bed.

LOCAL FIREMEN COMPLETE PLANS TO ATTEND MEET

Will Take American Legion Band To Phil- ipsburg Thursday. Fi- nal Details Of Trip Arranged.

At a meeting last evening in Co. No. 1 hall the Executive Committee of the Clearfield Fire Department completed arrangements for attending the Central District Volunteer Firemen's Association convention at

(Continued On Page Seven.)

COMMERCIALITES HOLD BIG SESSION

President Stewart of the Commercial Club has called a meeting of the Retail Section of the club at the Jordan Hotel Wednesday morning at 9 o'clock. The meeting will last about ten minutes, it is claimed. All members of this section are urged to attend.

Forty members of the Commercial Club met last evening at the Jordan Hotel for their regular semi-monthly meeting. Very little business was transacted.

The Civic Affairs committee reported their action in connection with the civic committee of the Rotary Club toward having the weeds on the river bank cut.

Only question of importance to come before the meeting, that being the endorsement of a petition to complete the paving on Fourth street between Odgen and Leavy avenue. This matter was referred to the Civic Affairs committee. It was conceded that the paving of this small stretch probably would lighten traffic on Second street.

President Stewart also announced there would be a meeting of the board of directors called within the next few days to consider enlarging the membership, and other matters now held in abeyance. There will also be a meeting of the Retail Section of the Commercial Club in the very near future, it was announced.

PETER GEARHART INJURED WHEN AUTOS COLLIDE

Ford Overturned Twice When Struck By Heavy Car. Injured Man Taken To Hospi- tal.

Peter Gearhart, of Centre, was the victim of an automobile accident last evening which might have had a much more serious ending.

Mr. Gearhart was on his way to Clearfield last evening for the purpose of attending a meeting of the Clearfield County Fair Association and was traveling in his Ford car. He came down the road from his farm to the State Highway just above Hyde City. As he came out of the side road onto the State Highway near the tipple of the Cassidy Coal Company the car of James P. O'Laughlin, Esq., which was being driven by Ben Logan crashed into him. Young Logan was on his way to the Clearfield-Curwensville Country Club for the purpose of bringing his employer's family back to their home and was alone in the car when the collision occurred. The O'Laughlin car, which was traveling pretty lively struck Mr. Gearhart's Ford about the middle and overturned it a couple of times on the road.

Mr. Gearhart who had Walter McTavis with him in his car, was carried along and buried in the wreckage. When extricated it was found he had suffered a broken nose and many cuts and bruises about head, face and body.

He was placed in a passing car and taken at once to the Clearfield Hospital where his injuries were given prompt attention. His injuries did not prove to be as serious as first reported and we are pleased to be able to state that word from the hospital today is to the effect that he is recovering finely and that he will soon be able to be about again.

Mr. McTavis suffered a few minor bruises.

LATEST ON UNEMPLOYMENT

Washington, Aug. 16.—There are now 5,735,000 persons unemployed in the United States according to a statement made public by Secretary of Labor Davis today in response to a resolution passed recently by the Senate.

COUNCIL TALKS OVER SEWAGE AND STREET PROBLEMS

Various Improvements Are Discussed By City Dads At Their Mon- day Night Meeting.

The regular meeting of Town Council held in the Borough building last evening was devoted almost entirely to the preliminaries and details incident to the different street and sewer improvement work about town.

Borough Solicitor-Urey stated that bonds for Fourth street paving were now in the hands of the printer and should be advertised for sale.

Chairman Rosser of the Highway Department reported that the concrete slab for the Fourth street paving had been put down on the block between Cherry and Walnut streets and that the work was progressing very satisfactorily.

State Road Supt. Westcott was present and asked council to assist him in solving the drainage problem at the borough line on Daisy street. The Sewer Committee was directed to meet the State Highway Department on this improvement.

Chairman McCloskey reported that the work of putting down the Fourth street relief drain was progressing satisfactorily.

Permission was given the Third Ward Hose Company to take their hose wagon to the firemen's convention at Philipsburg on Thursday.

The Property Committee was directed to make what repairs and improvements to the fire alarm system they found necessary to be made.

The Highway Department was directed to make some improvement at the B. R. & P. railroad crossing by enlarging the radius at the point there.

Dr. C. C. Arnold Hurt In Auto Crash Near Harrisburg

Dr. C. C. Arnold, the Third street optician, was the victim of an automobile wreck near Harrisburg Sunday evening. Dr. Arnold had been visiting at his home in Harrisburg and while driving near Dillsburg his car overturned and Dr. Arnold, his brother and two other occupants of the car were injured. The injured were taken to the Harrisburg hospital where they are recovering nicely.

FEDERAL TAXES FOR 1922 ARE CLIPPED

Washington, D. C., Aug. 16.—Federal taxes are reduced \$884,000,000 for 1922 and \$790,330,000 for 1923 according to Chairman Fordney, of the House Ways & Means Committee, who made this statement today in a formal report on the new revenue bill before the House.

The "Golden Rule" is a new up-
dated to Christ's doctrine of doing to
others as we should wish them to do
to us. See page 10.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Roy Strickland received on Saturday a fine thoroughbred dog. He expects to train it and get it in shape to exhibit at the big dog show which will be held at Conneaut Lake sometime in September. The dogs that he had up there last season received much favorable mention by the board of judges.

The Lieutenant Governor of the State has been secured as one of the speakers that will be here on next Wednesday, the 10th, annual reunion of the District Red Men. The program book containing a great deal of information is out and being distributed. The committeemen of the local tribe here have everything in hand for a most successful meeting, and in fact, it is expected that it will be the best reunion ever held in the district. Money and work has been profusely spent to make it so, and the tribesmen are enthusiastic in the event making history among Red Men in general. A considerable sum of money has been set aside for prizes and each winner will receive a full reward.

Rev. Dr. J. C. Collins and wife have left Curwensville and will be absent for the next two or three weeks putting in the time in enjoying their annual yearly vacation. They went from this place to Crystal Springs in Fulton county, where the Rev. preached at a camp meeting on Sunday. On their return trip they will visit with relatives in Newton-Hamilton, Tyrone and other sections. This, owing to the order of things as planned, no preaching will be held in the Methodist church for the next two weeks, but all other services will be carried out as usual.

Mrs. Theodore Shirk, who was taken to the Clearfield hospital one day during the latter part of last week, it being thought advisable to remove her to that institution for the

treatment of her illness, is reported considerably improved at this writing, much to the relief of her many South Side friends.

Mrs. Claude Pratt has returned to her former home in Piketon, Ohio, having been called thither on account of the illness of her mother.

Mr. and Mrs. Lester Bartelli have returned to their home in Detroit, Michigan, after a three week's visit in the home of Mr. and Mrs. John Blake and the homes of other friends.

Miss Louise Karstetter has returned home from State College, Centre county, after finishing a course of study for teachers. She has been engaged to teach in one of the rooms of the borough schools the incoming term.

Mrs. Clark B. Norris has returned to her adopted home at Franklin Grove, Illinois, after four months stay in this neighborhood. Several of her sons and daughters reside in the west and it is more than likely that Mrs. Norris will make her future and permanent home with them.

All the merchants in this town will be asked to close their places of business next Wednesday afternoon and evening, instead of Thursday as they have been doing all summer. The citizens are also requested to decorate with bunting and flags and any other patriotic emblems they have on hand. The local tribe of red men have asked very little from Curwensville to support them with this reunion, and the people of the town should now give them all the support possible, as this day means as much to the town as to the lodge of Red Men.

Samuel Leonard, whose home is on Ridge Avenue, but who has been working in a large tannery down in New Jersey for the past six months, came home Saturday for a short stay with his wife and family. He is employed in the capacity of chief engineer at the plant.

Rev. Earl Bergerstock and family arrived in Curwensville the other day where they expect to spend a short vacation with Mrs. Bergerstock's parents, Mr. and Mrs. Geo. Dougherty over on the South Side of town. Before entering the ministry he was employed as a clerk in the Curwensville National Bank.

A jolly picnic party consisting of Mrs. A. P. Way and son Marilyn, Mrs. Tone Evans, Mrs. Kate Fleming, of Reynoldsville; Mr. and Mrs. H. B.

Dranecker, of Philadelphia, motored from DuBois on Tuesday and enjoyed the day at the Pee Wee's nest. Mrs. Alton Hummell, of Clearfield, joined the party at the Grove.

RAILWAY BOARD PROBING CHARGES OF R. R. EVASION

Chicago, Ill., Aug. 16.—The United States Railroad Labor Board is understood today to be probing charges that railroads are establishing the open shop plan in their shops, thus evading the jurisdiction of the Board. According to word from Marion, O., the Railway Service Co. has taken over the Erie shops and is re-hiring the men on the open shop basis.

FRENCHVILLE PICNIC TOMORROW IS 51ST ANNUAL AFFAIR

The Frenchville picnic, the biggest gathering of its kind to be held in Clearfield county is scheduled for tomorrow and great preparations have been made for this annual outpouring of the pleasure lovers in the lower end of the county.

As is usually the case several hundred Clearfield people will take advantage of the day and go down to fraternize with the good people of that section.

This is the fifty-first annual Frenchville picnic and it is the proud boast of the French people that they have thus far beaten the weather man to it, and never once in the intervening half century has it rained sufficiently to spoil their picnic.

Exide BATTERIES

Why We Sell Exide
Batteries

Sound business reasons, every one of them.

1. The first commercially successful starting and lighting battery was built by The Electric Storage Battery Company.
2. The Electric Storage Battery Company is the oldest and largest manufacturer of storage batteries in the world.
3. Exide Service means a definite battery service—repairs, overhauling and attention by a group of battery experts.
4. We can sell an Exide Battery, secure in the belief that you will get all the battery value possible and more than you ordinarily would get.

No matter what make of battery you have now in your car, if it needs attention, we shall be glad to give it expert, unprejudiced attention so that it will last as long as possible until you are ready to replace it with an Exide, the long-life battery.

Quality of Foods.
Hard foods are a necessary part of a hygienic diet. The teeth need exercise, it must be remembered. Therefore, one way of keeping teeth in good condition is to eat hard foods, such as breadcrusts, toast, hard fruits, nuts and fibrous vegetables. Hard food causes the saliva and gastric juice to flow. If in addition to being hard the food is dry, the greater the flow of the saliva and gastric juice.

English Language Gaining.
To the observing student of the times, one of the wonders of this age is the spread of the English language. At the present time it is spoken by nearly 200,000,000 people. Each year adds a long list to the English-speaking world. Not many know that in the Philippines today more people speak the English language than spoke Spanish after 300 years under Spanish domination.

Pellagra Investigation Discloses New Facts About Food Epidemic in South Traced to Lack of Milk - Dairy Industry First Line Defense of Nation's Health

ABNORMAL RAT **NORMAL RAT**
This photo shows a well-fed rat, and an under-nourished rat. Diets which consist of seed products such as wheat, flour, cornmeal, oatmeal, rice, peas and beans together with potatoes and sweet potatoes, never produce animals with such fine appearance. The use of liberal amounts of milk, eggs and leafy vegetables in the diet is necessary to induce good nutrition. — The abnormal rat fed on the same diet with milk eliminated.

WASHINGTON, D. C., Aug. 18th.—The investigation of the pellagra epidemic in a large section of the South now being made at the request of President Harding by the Public Health Service and the American Red Cross is bringing to light some startling facts regarding a disease which for many years had puzzled the public health experts here and abroad. Latest reports received by the Public Health Service indicate that pellagra this year in the cotton belt would claim over 100,000 victims and it was estimated that ten per cent of the world die.

It is now definitely established that pellagra is a consequence of malnutrition, the result of an unbalanced diet. Research disclosed that a diet composed of too much of cereals, even when whole, was likely to induce pellagra. In short, pellagra is akin to scurvy, beriberi, and the like, all of which are now known to be the outcome of an unbalanced rather than an unbalanced ration.

One of the Southern States for instance at a time thousands subsisted upon a diet of biscuits, cornmeal, grits, gravy and syrup with little if any milk or lean meat. Their diet is principally cereals, starches and fat and there is a notable shortage of essential protein and of fresh fruits and vegetables.

Experiments recently carried out have conclusively proved that the occurrence of pellagra can concurrently with a reduced or negligible consumption of milk and that the disease declined markedly as the milk supply of the households increased. In the average case very definite clinical improvements were observed after about ten days or two weeks on an appropriate diet in which milk figured conspicuously.

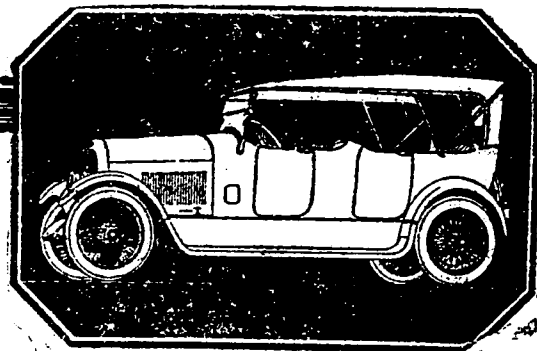

In the South the problem of the fresh milk supply is a serious matter. Agricultural conditions have been un-

favorable to the development of large dairy herds, the methods of milk distribution are inadequate and in the absence of refrigerating facilities with a total of 19,671,000 dairy cows in the United States there is enough milk produced annually to supply the needs of only about one-third of the population. The Government figures show that there is enough milk produced annually to supply the needs of only about one-third of the population. The Government figures show that there is enough milk produced annually to supply the needs of only about one-third of the population.

Fortunately the Public Health Service in its research work in connection with pellagra has found that one pound of condensed or evaporated milk is the dietary equivalent of one quart of fresh milk, and that evaporated or condensed milk, made from whole milk and retaining all of the original cream or butter fat, satisfies the body's need for the condensing and preserving in the prevention and cure of pellagra. It is important however, in using condensed milk, to be sure that it is made from the whole milk. There are many substitutes which are made from skimmed milk and in which the cream and butter fat are lacking, having been replaced by coconut oil or other cheap vegetable oils and which do not contain the essential vitamins known as Fat-Soluble-A which gives milk its chief nutritive and curative value.

In response to President Harding's appeal for help for pellagra sufferers in the South, the Borden Company, meat agencies have been organized through its President, A. W. Milburn, has offered to Surgeon General Clegg to supply the Public Health Service whatever condensed milk may be necessary to meet its immediate requirements in order that there may be no delay in carrying out its remedial measures.

The importance to the country of the dairy industry, not only on account of its economic value, but also because of its vital relation to public health, has been brought out and emphasized by the investigation of the pellagra epidemic being carried on by the Public Health Service. According to the report of the dairy section of the Department of Agriculture the number of farms in the United States reported in 1920 was 4,401,453 with a total of 19,671,000 dairy cows. The Government figures show that there is enough milk produced annually to supply the needs of only about one-third of the population.

All Car Owners who want to learn how to compare cars are invited To Make These Tests

There are 12 vital tests used by automotive engineers in judging cars. Their method is now available to the public—simplified but conclusive. No man can really make genuine comparisons without employing this method. All other ways are superficial and frequently mislead. To further introduce this new and approved method of comparison, we announce a second annual

Marmon Demonstration Week August 15th to 20th

This provides an occasion for every car owner in this city to know the remarkable qualities of the Marmon 34, as Marmon owners know them. This invitation is open to all—please do not hesitate even though you are not in the market for a car. Our aim is to familiarize all car

owners with this new method of comparing cars by score card. Those who accept our invitation will not be importuned to buy. Telephone now and arrange for the appointment. The demonstration will start either from our headquarters or from your home or office, whichever is most convenient for you.

STEELERS TAKE GAME FROM THE TERRIERS 10-4

**Game At Houtzdale
Monday Was Slow
From Start To Finish.
Umps Helped.**

The Clearfield Terriers met the Allegheny Steelers at Houtzdale yesterday afternoon and went down to defeat in a slow and uninteresting game by a 10 to 4 score.

Free Hitting Game.

Both teams had their eyes on the ball and while the Terriers out-hit the Steelers the latter's bingles were more productive of runs. Taylor did the pitching for our side and was hit harder than in any other game he has worked in here. This fact is largely due to the incompetency of the umpiring and was no fault of Taylor's.

Knetzer Severely Stranded.

Knetzer, the Steeler's star twirler, was nicked for thirteen hits, but kept them pretty well scattered throughout the game.

Taylor, Edmonson and Pearce each faced out homers during the game.

The score:

Clearfield	R	H	PO	A	E
Anderson lf	0	2	1	1	0
Fleishifter 1b	0	0	3	0	2
Yerkes 2b	1	2	4	1	0
Harris 3b	0	1	2	0	1
Hoffman rf	0	2	3	0	0
Zerluch ss	0	1	3	0	0
Kane cf	0	1	3	0	0
Hopper c	1	2	5	0	0
Russell c	0	0	1	0	0
Taylor p	2	2	1	1	0

Totals - - - 4 13 24 4 3

Houtzdale	R	H	PO	A	E
McGowan 2b	1	1	0	0	0
Shaw 1b	0	0	7	0	0

Gill 3b	3	3	3	0	0
Edmonson rf	2	2	0	0	0
Pearce ss	2	1	2	0	0
Rudolph lf	0	1	3	0	0
Onslow c	1	0	3	1	0
Knetzer p	0	0	1	1	0

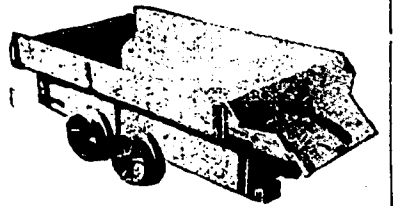

Totals - - - 10 9 27 4 0

Clearfield . . . 0 0 0 1 0 3 0 0-4
Houtzdale . . . 3 0 1 0 0 3 3 0-10

Two-base hits—Anderson, Harris, Tyson. Home runs—Taylor, Edmonson, Pearce. Double plays—Morphett to Pearce; Yerkes to Taylor to Fleishifter. Struck out—by Taylor, 3; by Knetzer, 9. Hit by pitcher—Harris, Anderson, Onslow, Rudolph. Umpires, McGowan and O'Donnell.

Liquid Soap for Cleaning Carpet.

Take two bars of white soap, chopped fine and melted in one quart of hot water. When almost cold, add a teaspoonful of ammonia. When ready to wash or scrub the carpet, put a little ether into the mixture. Keep it well corked and add half a cupful of the mixture to a large pailful of tepid water. It makes a powerful lather. Wipe the carpet off with clear water.

ODDS AND ENDS AND THINGS

"By Skinny"

The newspapers carried a story a few months ago where some "high brow" psychological authority declared the school teacher—the lady teacher of course—for 1921 must be beautiful. That is she should be so charming that her pupils could not keep from obeying her every wish. The kids will soon have the opportunity of looking over the selections made by the different school boards and of course will be able to pass on the judgment of feminine charm possessed by the average dree.

YOU ARE GETTING ON

When you fume and you fret
And your nerves get unstrung;
When you often forget
That you ever were young
When you growl at your wife
And you snarl at the cook,
And the troubles of life
Seem too dreadful to brook;
When you howl when it's hot
And complain when it's cold
Deny it or not—
You've begun to get old.

We are, or at least getting to be, a nation of real gamblers, and take as a matter of course things our daddies never even thought of. Frinstance, nowadays when you decide on a ball game or other big time and make considerable preparation and expense for same, you can arrange a bet any day with several insurance companies on the weather for that particular occasion. The insurance company will bet you on your prospects and on the weather and for ten per cent of any estimated amount you place on your gate receipts will guarantee you fair weather and the crowd you think you are going to have and in case it rains and the weather puts you out of business, the insurance concern will pay you the total of the gate agreed upon. Who wouldn't take a chance occasionally.

Frosts were reported in several sections of Clearfield county on the morning of August 15th. It has been a short summer.

The Red Men's convention at Curwensville Wednesday, the Frenchville picnic also on Wednesday; the Firemen's Convention at Philipsburg on Thursday and the Odd Fellows County reunion at Clearfield on the same day will make the next two days strenuous ones for Clearfielders who believe in taking a hand at anything and everything that comes along.

Clearfield's baseball fans, and no more loyal bunch are found in any town on earth, decided that they wanted at least three weeks more of baseball and at a meeting last evening quickly raised the necessary "iron men" to assure the maintenance of the present team until after Labor Day.

If all the people who are transporting liquor and alleged liquor illegally for beverage purposes are picked up and put in jail, the county authorities will soon have to rent the driving park to hold them.

Andy Volstead and his much abused cat while not very popular with the average or "run of the mine" citizen appear to be able to stick around somewhere near the top of the heap, and occupy the front page quite generally regardless. "The man worthwhile is the man with a smile," when more than half his neighbors have their hammers out for him.

PITTSBURGH POLICE STILL HAVE HOPES OF GETTING STOKES

Pittsburgh, Pa., Aug. 16.—Pittsburgh police have not abandoned hope that Benjamin Stokes, wanted for the robbery and murder of James Neal, Burgess and Buhl department store money messenger, is under surveillance in London despite reports denying his arrest. Captain of Detectives Edburn expressed belief that Stokes is being held there on a technical charge or may be under constant surveillance of London police who may be waiting for a formal order to place him under detention.

Stokes was the alleged "master mind" of the robbery.

LEITZINGER BROTHERS

THEODORE A. CRAMER

On Friday of last week death entered the home of Theodore A. Cramer and carried away the husband and father of that family.

For several years Mr. Cramer had been a sufferer from stomach trouble. About three weeks before his suffering became so intense that an operation seemed the only recourse. He seemed to be getting along finely until on the tenth day after his operation he suffered a relapse from which he never recovered. What he suffered so patiently during the last few days of his life only those who were constantly beside him knew. While talking to his pastor in one of his visits he said "I am only too ready to go whenever they want to call me home."

Theodore A. Cramer was born at Pine Glenn, Pa., March 26, 1870, being the youngest son of John and Rebecca Cramer. In July 1892 he was united in marriage to Miss Annie Eiters to whom seven children were born. All of whom are living.

Mr. Cramer had been in the employ of the New York Central for a period of 27 years, most of the time being one of the company's most trusted engineers. In his death the community has lost a good neighbor and the family a loving father and devoted husband.

He is survived by his aged mother Mrs. Rebecca Cramer, of Snow Shoe; one brother, Harry Cramer, also of Snow Shoe, and the following sisters: Mrs. Annie Ennick, of Myersdale, Pa.; Mrs. Geo. Uzzell, of Snow Shoe; Mrs. Ed Davis, of Morrisdale; and his immediate family, his wife, Mrs. Annie Cramer; Hazel, who is employed by the N. Y. C. at Cleveland, Ohio; Sherwood, married and living in Clearfield; Mrs. Lee Linsenhigler, of Clearfield and Logan, Theodore, Leslie and Jean at home.

He was a member of the following Fraternities: F. O. Eagles, L. O. O. M. Knights of Malta, Brotherhood of Locomotive Engineers, Elk Hose Co.

He was buried from his late residence on Monday afternoon at 2 o'clock. The following named men were pall bearers: Joseph Breth, Roy Williams, Halford Shope, Geo. Brett, L. J. Johnson, L. P. Wisner.

Funeral services were conducted by ministers of the U. B. church and Presbyterian church. Mr. Cramer being a member of the last named church. Interment in Hillcrest cemetery, F. B. Leavy undertaker.

Polar Bear Can Swim.

The Polar bear is as fine a swimmer as a seal, and behaves, in the ice-cold seas of the north, with as much unconcern as though it had been born in that element, writes Dr. R. W. Shufeldt in the American Forestry Magazine. It has been known to drift for miles upon a floating iceberg, and this evidently for pleasure and convenience, rather than from necessity, as a number of Arctic explorers have reported having seen Polar bears, hale and hearty, swimming in the open ocean all the way from 40 to 80 miles from land.

Best Wood to Resist Decay.

The forest service says that this cannot be determined, since various species act differently in tropical and temperate climates. Lignum vitae probably comes nearer to living up to this term than any wood in the world. Generally speaking, the following woods may be classed as very durable: Black locust, cypress, greenheart, lignum vitae, mesquite, teak and the cedars.

Bad Luck to Owe Money.

The halibut fishermen of the Pacific have a reputation for honesty. They invariably pay all their bills before starting on a fishing expedition. They regard it as bad luck to leave any unpaid accounts behind. These men do not work for wages. They pay all expenses for their equipment and then share the proceeds of the trip.

Seemed Natural Question.

Lowell had been told that when the sun comes up here it was getting dark in China. Early one morning the Chinese laundryman called at the back door. Lowell opened the door and his first question was: "Did you put your children to bed before you left home?"

Skin Thick on Palms.

Among other interesting facts that have been determined by the fleshless investigating scientists is that: That the skin on the palm of the hand is normally 20 times as thick as the skin on the eyelids. The palms of the workman are even thicker.

Pagan Creed Concerning Fire.

That fire and water are the foundations of spirits is perhaps a universal article of the pagan creed. The sacred ever-burning hearth fire was, in primitive days reckoned the special abode of the household gods; it was, therefore, considered dangerous to give a stranger a burning brand.

OPTIMISTIC UNDERCURRENT FELT

Today the Coal Trade Bulletin says:

But little change has occurred in the coal market during the first half of August. Operating conditions and sales of product are practically on a parity with those prevailing at the opening of the month, although there has been a stiffening of prices for among the coal men throughout the country and this undercurrent among the coal men throughout the country and this undercurrent of optimism probably is based largely on the reports appearing in the daily press of resumption of activities in some sections of the country.

Just at this particular time the subject of more than passing portent among the mine owners and shippers is the wage question, and the attempt to secure cost reductions through lower wages in the union fields of the country. Wage reductions have been made in the Somerset county, Westmoreland and Connellsville coking fields of Pennsylvania, non-union mines in Central Pennsylvania and in West Virginia have taken similar action, and the net result is that the mines operating under wage contracts with the United Mine Workers of America are making an earnest effort to secure similar reductions to enable them to compete with the lower cost non-union mines. This situation is having a marked effect on the bituminous end of the industry and is one of the retarding elements that are preventing a return to normal conditions in the industry.

The buyers' strike that was so much to the fore at mid year still lingers with the industry and reports from market centers indicate that both industrial and domestic stocking of coal continues at low water mark, presaging a shortage when the real cold weather comes along about the turn of the year. This condition is particularly noticeable in the northwest, and as a result there has been a decidedly slow movement of tonnage from upper lake docks to the interior, thus putting the lake shippers in a position of having their docks filled with coal, no demand and probably four million tons more than now are on hand needed to complete the season's requirements. Coal is going forward from mines to lower lake ports in exceedingly small quantities and some of the larger shippers are open in their avowal that the lake season practically is over.

In the southwest the demand for coal for threshing and some railroad tonnage has resulted in a flurry of better operations, but this is not to be taken as a criterion of really better things throughout all the fields.

Taken as a whole it is hardly likely that operation of mines has increased more than one or two percent if there has been that much.

New England practically stands alone in reporting an upward trend in the market, and this is for bituminous coal alone, anthracite still dragging along as it has all summer.

Adjustment of freight rates, along with the question of car supplies for the mines, are two subjects of prime importance that are having their effect on the market at this time, and as both still are up in the air, they tend to make for stagnation, rather than for settling doubts and permitting the trade to get in swing for better things.

ARBITRATION

Last night's action at the meeting of the baseball fans and the Board of Directors of the Athletic Association shows that arbitration really pays. The Directors went into that meeting backing their statement they were through with baseball this year, and came out of it backing baseball to the limit. However, they did not agree to again take up the burden until they had been assured the other fellows were willing to buckle down and lift part of the burden.

That is what is needed in many businesses today. A little arbitration, a little give and take, and a little equalization of the burdens of the business.

A VERY POOR SYSTEM

A man owed his neighbor \$12.67. A few days ago he went over to pay the debt with a \$20.00 bill, expecting \$7.33 in change.

But his neighbor did not have the change. He borrowed from the other members of the family (taking some from baby's bank) before the correct change could be given.

When this neighbor went to town again he got some change and returned to each one the sum borrowed. It was a lot of trouble for one transaction.

But suppose that man had been using the checking system. He could have then paid his neighbor quickly, with the exact change; a business-like transaction.

Every one admires the man who is careful and business-like. The checking system deserves its popularity. It is the safest and best.

BUSINESS AND TRADE

News of Local Interest
With Special Attention to Coal, Clay and Brick Trade

VALUE OF COAL EXPORTS IN 1921 FIVE TIMES AS GREAT AS IN 1914

Coal exports from the United States in the fiscal year just ended were five times as much in value as in the year preceding the war and nearly double those of 1920. The total value of coal sent out of the country in the year ending with June 1921, was \$434,563,000 against \$231,000,000 in 1920 and \$86,000,000 in the year preceding the war.

Never until the fiscal year 1917, says the Trade Record issued by The National City Bank of New York, had the value of our coal exports reached as much as \$100,000,000. Prior to the war they averaged about \$80,000,000 a year (including the "bunker" coal supplied to vessels engaged in the foreign trade), slowly increasing during the war and standing at \$141,000,000 in its closing year, 1918, \$231,000,000 in 1920 and \$434,000,000 in 1921.

While this tremendous increase in values, adds the bank's statement, is due in part to higher prices, the quantity also shows big gains, the total quantity of bituminous exported in 1921 having been 139 per cent greater than in 1915, while "bunker" and anthracite also showed marked increases in quantity. While export prices were extremely high in the early part of the fiscal year 1921 they declined rapidly in recent months, the average monthly export price of bituminous having fallen from \$10.67 per ton in October, 1920 to \$5.68 in June 1921.

This big increase in our coal exports have been greatly reduced during the past year, the total exports of coal (exclusive of "bunker") having been in the year ending with June, 1921, but 16,500,000 tons against 31,000,000 in 1920 and 73,000,000 tons in the like period of 1912-1913. A British coal export (exclusive of "bunker") in the twelve months ending with June 1921, were less than one-half as much as those of the United States, while in 1913 her exports were 3 1/2 times as much as ours. The United States and Great Britain are now the world's chief coal exporting countries, the quantities supplied to world trade by the other coal exporting nations—Canada, Japan, and Australia—averaging but about 2,000,000 tons each, while Germany, formerly a

PENNSYLVANIA LEADS ALL IN FORESTRY WORK

Latest Reports Of The Forest Service, U. S. Agricultural Department, Shows Keystone State Out In Front.

Washington, D. C., Aug. 15.—Probably never in the history of this country has there been such marked interest in forest preservation by State legislators as at the present time, report officers of the Forest Service, United States Department of Agriculture. No less than 33 States have now provided for some sort of forestry activities and 25 of these share in the Federal co-operative forest protection fund, allotted

to States maintaining an effective fire detection and suppression system. Two others have applied recently for such assistance. Public backing of the movement to preserve the remaining forests from destruction by fire, and to put idle forest lands to work growing trees, is becoming widespread, and the effects of the popular demand for action is shown clearly in the State laws passed this year.

Pennsylvania, under the direction of Gifford Pinchot, the new Commissioner of Forestry, leads all States in forest activities. The biennial appropriation passed by the legislature and approved by the Governor carried \$1,870,000, an increase of \$863,300 over the appropriation of 1919; \$1,000,000 of the total is for

fire protection. The legislature also passed an act empowering the Federal Government to acquire lands on the watersheds of navigable streams within the State, by purchase or condemnation, and to control and regulate such reserves.

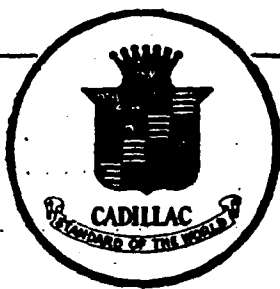

Glue From Seal's Flippers.
Hitherto U. S. flippers of the whales caught in our waters have been regarded as a waste product, but the fisheries bureau finds that they will yield 67 per cent of their weight in very excellent glue. It hopes to find a market for seal flippers with the due manufacturers. Each year about 5,000 fur seals are killed on the "ribbyoff" islands, in Bering sea. Reckoning four flippers at eight pounds, the annual production of flippers is 100 to 140 tons.

How You Get Thin

To become slender or reduce your weight, simply take those delightful little Korein Tablets as directed. No need to starve yourself and no danger. The shadow part of this picture shows how fat makes some women look old and ugly. It's dangerous to be overweight, and so easy to get thin, you should get a box of Korein Tablets and begin reducing now! Write for free book which explains the safe and easy Korein system. Send postcard with many testimonials. Address: Korein Co., N.M. 14, Station X, New York, N. Y. KOREIN tablets are dispensed in this city by all good druggists including

In First Cost and After Cost, the World's Greatest Motor Car Value

The Cadillac has always stood, and stands now, the world over, in a class all its own.

In Europe—England especially—no other American car is ever mentioned, or even considered, in comparison with the Cadillac.

And in America, you know the overwhelming preference in which it is held by owner and non-owner alike.

And yet, strangely enough, those cars which strive for comparison with the Cadillac have always been, and are now, higher in price.

So there is a double sense—a greater and a lesser sense—in which the Cadillac is clearly the most notable motor car value in the world today.

The greater value of the Cadillac—on which its reputation rests—is its superior performance, and that immunity from the need of constant tinkering, adjustment, overhauling and repair which renders it unique among motor cars in economy.

This is the true value-test beside which the lower first price the Cadillac owner enjoys is of little or no consequence.

Nevertheless, it is pleasant for the Cadillac owner to know that in first cost, as well as after cost, he enjoys the greatest motor car value in the world today.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

TURE PREPARES INTERESTING SEED EXHIBITS

Many interesting samples of grass and other seeds are being picked up by the seed testing laboratory of the Pennsylvania Department of Agriculture. Some of these samples contain many weed seeds and much foreign matter. The most interesting of these after analysis are being put up in exhibit form by making photographic enlargements of them. These will be shown at the agricultural fairs this fall.

IRIS ROOT BORDER DAMAGES BLUE FLAG

Some roots of iris or blue flag have been received by the Bureau of Plant Industry, Pennsylvania Department of Agriculture from an iris grower who complained of great damage being done to the plants. This damage was done by the iris root borer, a worm which when full grown is about two inches long, is white in color and has a brown head and a row of black spots above the body. When abundant these worms work havoc in an iris bed and as 100 have been dug from a piece of ground six by eight feet, prompt measures should be taken to rid the ground of them. The adult is a smoky purplish moth that flies at night and who lays the eggs in the laps of the leaves in late fall. While no definite method of control has been worked out, much can be done by cutting the leaves off close to the ground in the fall and burning them to destroy the eggs.

BAGWORMS ARE DEFACING SHADE TREES

Many specimens of bagworms are being received by the Bureau of Plant Industry, Pennsylvania Department of Agriculture. These are curious insects. As soon as the eggs hatch the little worms commence feeding and at the same time each one encloses itself in a bag made from the leaves on which it is feeding, fastening the pieces together with silk which it spins. It is very curious to see these brown bunches of leaves moving about on the leaves. The bagworm is easily controlled by spraying with arsenate of lead using one ounce of the powdered form to a gallon of water, or by dusting it on the trees. To dust, mix ten parts of arsenate of lead in ninety parts of some dust such as dusting sulphur, air slacked lime, hydrated lime or land plaster.

GOVERNMENT GRAIN EXPERTS JOIN FORCES OF STATE DEPARTMENT

George A. Stuart, for the past two years Supervisor of the Philadelphia office of the Grain Supervision Service of the United States Bureau of Markets has resigned to take charge of work along similar lines in the Bureau of Markets of the Pennsylvania Department of Agriculture. Mr. Stuart's new work will be chiefly along the line of familiarizing the shippers and growers of grain in Pennsylvania with the requirements of the United States Grain Grades which are the basis for grading the grain crops of the entire country.

RED MEN EXPECT

(Continued From Page One.)

turn trip leaving Curwensville at 10:30 p. m.

The celebrated Legion Band of Clearfield will be present, also The American Legion Band of Curwensville, The Red Men's Band of Morrisdale, the Red Men's Band of Madera and the Mahaffey Red Men's Band. There will also be several other bands present.

The Lieut. Governor of Pennsylvania, Hon. Edgar Beidleman will be present, also Congressman Evan J. Jones, and National Junior Sargent, Charles Pass, and The Great Sachem of Pennsylvania, Dr. John T. Ferley also the Great Pocahontas of Pennsylvania. This will be the greatest gathering of Red Men and high officials of the State that the District has ever known.

Every thing possible is being done to make this a great day for the Red Men and their friends. The festivities will start in the morning at 11:30 with a Mammoth parade under the direction of Percy E. Smith and they will continue until after midnight of the day. Clearfield and Philipsburg Red Men teams will play ball, also Morrisdale and Madera. Many prizes are being given and keen friendly rivalry is being shown by the various Tribes to win as many as possible. The second day, Aug. 18, will be for business only, at which time the district officers will be elected.

F. Fullerton, wife and little son, J. of Johnstown, spent the week end with his parents, Mr. and Mrs. G. Fullerton, on Market street.

RED CROSS NURSE ARRIVES HERE

Miss Ollie Ross, of Indiana, the American Red Cross nurse, who will have charge of school work for Clearfield chapter this year, has arrived in Clearfield and will be in charge at Red Cross headquarters in the Murray building until Miss Elizabeth Dill, the Supervising nurse, arrives to take up the work for the fall and winter.

These ladies succeed Miss Miller and Smythe who were here last year. The baby clinic will be held at Red Cross headquarters tomorrow afternoon as usual and Clearfield mothers

are requested to attend.

Miss Ross and a physician, with a competent corps of assistants will be present at the clinic to which all are welcome. The American Red Cross public health nursing service has already accomplished a great deal of good throughout this community and deserves to be fostered and maintained to its highest possible efficiency.

Mrs. Melvin Derr of Tyrone; Mrs. James Russell and Mrs. Uzzell, of Snow Shoe, Mr. and Mrs. Claude Thompson and Robert Thompson, of Bellefonte; Mrs. Frank Jamison, of Canton, Ohio attended the funeral of Theodore A. Cramer.

Mrs. Emma Gable and son Charles Mrs. W. H. Cochran and sons William and Boyd and Henry Kennedy and Carl Sluth, motored from Cumberland, Md., and are visiting Mrs. Ralph Kennedy and friends and relatives here.

Mr. and Mrs. F. E. Lenehan, of Boston, Mass., are guests this week at the home of Mr. and Mrs. Fred Halford.

WHISKY SMUGGLERS MATCH WITS WITH FEDERAL PROHIBITION ENFORCEMENT MEN

New York, N. Y., Aug. 16.—Whisky smugglers trying to enter the United States by land and sea were matching wits with Federal and state guards along the Atlantic coastline and the Canadian border today. Raids, seizure and arrests marked today's engagements in the border battle between bootleggers and United States authorities. The border guards have been reinforced with fast automobiles and motor boats.

The coast guards, to which has been delegated the work of rounding

up the blockade runners have hundreds of cutters at work now and plan to augment this force with several sub chasers. The prohibition enforcement officers are considering a request to the navy for several destroyers.

The availability of liquor has been reflected in a drop in prices. A few months ago imported liquor sold as high as \$18 to \$20 a bottle. A few weeks ago it dropped to \$10 and prices in various parts of the country today show the best liquor is obtainable at \$6 to \$7 a bottle.

Introducing "Mona Lisa"

She's queen of her class. She was judged the best French bull at the dog show at Long Branch, N. J. M. Rosner, of New York, owns her. He calls her "Champion Monte Carlo Mona Lisa."

DIVORCE NOTICE
In the Court of Common Pleas of Clearfield County, Pennsylvania.
Lucinda Brooks : No. 3,
vs. Sept. Term,
1921.
Walter Brooks :
To Walter Brooks:
You are hereby notified that the undersigned Commissioner, appointed by the Court to take the testimony in the above stated case and report the same to the Court with form of decree, will sit for the purpose of his appointment at his office in the Clearfield Trust Company Building in the Borough of Clearfield, Pennsylvania, on Tuesday, the sixth day of September, 1921, at eleven o'clock A. M., when and where you may attend, if you think proper.
8-16-21 ch
GEORGE R. BIGLER, Commissioner.

CHARTER NOTICE
Notice is hereby given, that application has been made to the Public Service Commission of the Commonwealth of Pennsylvania, under the provisions of the Public Service Commission Law by George Peters and W. T. Owens, trading as the Peters and Owens Bus Line, for a Certificate of Public Convenience evidencing the Commission's requisite approval of the right to operate automobile buses as a common carrier on regular schedule between Phillipsburg in Centre County and Allport in Clearfield County. A public hearing upon this application will be held in the rooms of the Clearfield Trust Company Building on the 26th day of August, 1921, at 9:30 A. M. Local Time, 8:30 A. M. Standard Time, when and where all persons in interest may appear and be heard, if they so desire.

SHE FINALLY CAME TO NERV-WORTH FOR RESULTS

Like Hundreds of Others Found It Did the Work Where Other Remedies Failed.

Mrs. F. J. Clouser of 2211 1/2 Brady St., Dubois, Pa., told a Nerv-Worth representative in an interview the other day that she tried for a long time to get relief from stomach and nervous troubles, but now with no success until she found Nerv-Worth. She said she could not eat anything and keep it on her stomach, and she was so nervous that she could not sleep at nights. Numerous remedies had failed, but after taking Nerv-Worth, she reports that she can eat and sleep much better, and is only too glad to tell what it has done for her. Give Nerv-Worth a trial today, and remember your first trial bottle is not satisfactory, your drugist is authorized to refund your money.

\$1.00 PER BOTTLE. Sold and recommended by Stewart's Drug Store.

ATLANTIC Polarine for Your Ford Motor

Ford motors run noticeably smoother, develop more power—live longer!—with this extraordinary year-round motor lubricant, *Atlantic Polarine*.

It gets to the bearings, quiets the valve mechanism, and keeps the cylinders lubricated and the pistons sealed. The pressure and impact from the power impulses can't force it from the friction surfaces.

Atlantic Polarine has the widest effective temperature range of any motor oil made. No other oil has its peculiar refinement and firm-bodied stability. Yet it has the free-flowing mobility of lighter oil—without its disadvantages.

Atlantic Polarine is *RIGHT* for Ford Motors.

ATLANTIC MOTOR OIL

Keeps Upkeep Down

The Ford Manual says:—
"The oil should have sufficient body so that the pressure between the two bearing surfaces will not force the oil out and allow the metal to come in actual contact. Heavy and inferior oils have a tendency to carbonize quickly, also 'gum up' the piston rings, valve stems and bearings."

LOCAL FIREMEN

(Continued From Page One.)

Phillipsburg, Aug. 17 and 18. The American Legion Band will go with the firemen to discourse charming music to the people along the way and to the Burg's visiting hosts. The last obstacle in the way of taking the band to the Convention was removed when our generous people subscribed the necessary funds within the past few days to defray the expenses of the band for the trip. Clearfield people feel a justifiable pride in the Legion band, the latest musical organization and want to show other people what they can do. The band has been entered in the band contest, Aug. 18, fully expecting to bring home one of the handsome prizes offered, they will also give an indoor concert in the evening.

The sessions of the Convention will be held Aug. 17 and will be attended by a large number of delegates from all townships comprising the Central District. These sessions are always very interesting and instructive, the interchange of ideas and experiences materially assisting to maintain the high standard of fire fighting efficiency existing through the Central District.

Thursday, Aug. 18 will be the Big Day. The magnificent parade will take place in the forenoon. Was there ever anyone who did not feel a thrill upon seeing a firemen's parade pass by? These are the boys who toil for the benefit of others

TONSILLITIS RESULTS IN DEATH

William P. Sheeder, Jr., the little 9 year old son of Mr. and Mrs. William P. Sheeder, died at the family home on Second street at 9:30 o'clock this morning. The little fellow suffered an attack of tonsillitis about one week ago and pneumonia developed causing his death.

He was a bright, manly boy and his sudden taking away is indeed a sad shock to his family who have the sympathy of all in their bereavement. He is survived by his parents, one sister and a brother.

The funeral, which will be private will be held from the Sheeder home Friday afternoon at 2:30 o'clock. Interment in Hillcrest cemetery.

whenever called upon and without murmur or recompense. Now, in the same spirit, they furnish the entertainment on one day out of 365.

In the afternoon will occur the Firemen's contests, hose races, foot races, all kinds of races, and don't forget the band contest.

Clearfield will be represented by a large number of firemen in the big parade, and at least one of our handsome new fire trucks. It stirs the old town with delight to feel assured that we can put on as handsome display as any town in this part of the State, the aim of Chief Kreher being to make the Clearfield Fire Dept. the equal of any and second to none in every respect.

MOB SEIZES NEGRO'S BODY-BURN IT ON FUNERAL PYRE

Coolidge, Texas, Aug. 16.—The body of Alexander Winn, a negro, was taken from an undertaking establishment here early today, by a mob, and burned. Winn was hanged by a mob yesterday at Datura. He was accused of assaulting a 7 year-old girl.

MARRIED YESTERDAY

William R. Swoope and Virgie Irene Hugley, both of Woodland, were married at the West Side Methodist parsonage at noon yesterday by Rev. C. C. Snively.

MONEY MEASURE APPROVED

Washington, D. C., Aug. 16.—The Deficiency Appropriation bill, carrying \$45,500,000 for the United States Shipping Board and \$200,000 to defray initial expenses of the Washington Disarmament conference, was favorably reported to the Senate today by the Appropriation Committee.

DOES YOUR HEATING EQUIPMENT HEAT—OR JUST PROVOKE YOU?

Any heating plant needs a certain amount of upkeep and attention. Often what seems to be serious trouble is only something that needs adjustment or a minor replacement, that will pay for themselves in labor and fuel.

Perhaps your equipment is antiquated or worn out. No matter what the fault is our service will point the way for correcting it effectively at the smallest possible cost.

Don't wait till cold weather to have your furnace repaired.

ALBERT J. SHAW

3 Weaver Street

CAPTURED BY THE INDIANS

The degree team of Chincla-moose Tribe of Red Men pulled off quite a stunt on one of their members and treated a pair of newlyweds to a joy ride about town. George Rhone, who has been residing in Cincinnati, Ohio, for some time took unto himself a bride in the Ohio city last week and came home to Clearfield on his honeymoon trip. George is himself a Red Man and when his brother Indians heard the news they got ready to make it interesting for him and his squaw.

The newlyweds were due to arrive in Clearfield on the 6:45 P. R. R. train Saturday evening, but the foxy George expected something and tried to get by by motoring home from Tyrone. He got home alright but those Indians in full regalia and war paint took up the trail immediately and soon captured the brave and his bride. They were then given a real joy ride all over town and when the Indians thought they had been properly initiated they returned them to their home once more but it was some session.

Islands in Great Salt Lake.

There are several islands in Great Salt Lake. On these islands, which lie the lake's shores, are whitened by salt, immense flocks of gulls, ducks, geese and pelicans breed each year. On Antelope Island, the largest, alfalfa is cultivated and cattle are raised. Antelope Island, also known as Church Island, is about eighteen miles long.

A Possible Ancestor.

J. W. Gidley, a scientist of the Smithsonian Institution, has dug up a possible ancestor of man in central Montana. That is to say, he came across the skull of a small animal which unquestionably belongs to the great tribe that includes ourselves and the monkeys. The teeth prove it. The animal was not, however, a monkey. So far as known, there never were any monkeys within the limits of what is now the United States.

Freshen Roses.

Roses will give much greater return if, before they are put into the water, the ends of the stems are crushed or mashed. Then when the rose wilts cut off the end of the stem, slit it in half for about one half inch, hold the ends in boiling water for a few minutes, then plunge the stems in cold water. The rose will be as fresh as new. Do this at night and let the roses stand in a deep pitcher of water all night before placing them in the vase.

Froggitor of the Galosh.

The great-grandfather of the galosh was the Englishman's jack boot, black as the leather bottles from which he drank his ale—solid and unfillable as iron, square-toed and clumsy. Even the purest of Puritans strode the streets with this one frivolity of dress flaring at the tops. It wasn't the "wearing of boots" that was the abuse, mourned one commentator upon this style, "but the generality of the wearing, and the number of cutting boots out with huge, slovenly, immoderate tops."

Sale Closes TOMORROW

HERMAN HOFFMAN

The West Side Furniture Man

Gossip for Tonight's Tea Table

Mr. and Mrs. H. B. Draucker, of Philadelphia, who have been guests of Mr. and Mrs. Alton Hummel, also relatives and friends in Clearfield, Luthersburg and DuBois have returned to their home in Philadelphia.

Mr. and Mrs. Leo A. Souders and daughter Elizabeth, who have been guests of Mr. and Mrs. F. D. Souders at their home on West Front street, the past week, left for their home today.

Mrs. Ralph Austin is a patient at the Clearfield Hospital.

APOPLEXY CLAIMS LOCAL SALESMAN

W. R. Thompson, who has been located in Clearfield and vicinity for the past couple of years engaged in the sale of stock in the Jersey Corn Flake Corporation, died at the home of Mrs. M. R. Lucas, corner of Fifth and Market streets last evening as the result of a stroke of apoplexy.

The deceased had been in his usual good health last evening and after attending the movies returned to the Lucas home where he roomed and played cards for an hour or so with a fellow roomer. He was cheerful and uncomplaining upon retiring but about 1 o'clock this morning aroused Mrs. Lucas and stated that he was sick and would like to have a doctor called.

Dr. Rowles was telephoned for and responded quickly but Mr. Thompson collapsed shortly after waking the other inmates of the house and was dead when Dr. Roles arrived. Death was due to apoplexy.

The deceased, who was about 51 years of age, was a native of Boston, but came to Clearfield some two years ago. He is survived by three sisters, one of whom lives in Buell, Va., and another in Westport, Conn. No funeral arrangements will be made until word is received from the deceased's relatives.

Eyes of Night Birds Large.

The eyes of the birds that fly by night are usually nearly double the size of those that go abroad by day.

PURE MILK

Give The Kiddies More Milk

They'll thrive on it more than they will on anything else that they can have. Nature prescribes milk as the first food a kiddie has and isn't it logical that that food will make the kiddie thrive as he advances in years?

We're taking extra pains that the milk that goes out to your kiddie is as pure as careful pasteurization can make it. Clean cans, clean bottles, careful handling—these all go to make your kiddies' milk the best that can be given.
